“Your Virtual Agent Services”

“Why is have a virtual registered agent?”

First, no person(s) (rather an entity or others) can exist without a registered agent! Corporations (or business) are required in every state to have an registered agent. The real question is why not have one. The important of agent service has been lost today. Corporations and small business forget the old saying about a person who represents themselves in court. Because they have forgotten over 80% of small business becomes their own registered agent, while greater than 80% of major business seek out registered agent(s). A registered agent is a person or service who will receive legal documents on behalf of your business, such as subpoenas, regulatory and tax notices, and correspondence. In many states, lawsuits must be served in person. Having a registered agent makes this a clear and orderly process. Registered agent business services are widely different, depending upon the agency. USNEPS offer a full service, plus grant writing (and underwriting) services to member of our agent services division, and for religious orders. With us you get not just a agent, but a virtual team member dedicated for your success in business. So, rather you are an artist, small business or nonprofit, we serve you and your needs.

What is a Registered Agent?

A Missouri registered agent is the legally designated point of contact for your business or nonprofit. The registered agent receives important legal notices, such as service of process (aka notice of lawsuit), on your business. The key benefits.
